These jobs are needed for the community and the state. This is one of the most productive smelters in the world per man hour. Power efficiency is at an all time high. I believe the root of the problem is the greed of Santee Cooper. How does a state agency give employees bonus money, that's right, they over charge their customers. No one on the Santee Cooper board cares, because there paychecks won't stop, their families will be fed. Christmas at Lonnie Carter's house will be just as grand as always, thanks to his almost \$400,000 a year salary. Good job looking out for fellow south Carolinians, douchebag.

No one should have a monopoly on power. They should agree to the transmission lines. Fair trade is good.

This job supports my family. I would hate to see it go over a issue that can be resolved.
