

Ms. Nikki Haley

Nov. 5<sup>th</sup>, 2015

My name is Deanne Tucker I'm 55 years old live on Social Security Widow Benefits for myself and my son. I have been a widow since 2006 which at that time my son was 4 years old at this time right now I get 916.00 A Month that is for the both of us. It is very hard to survive I filed a claim with FEMA and I will tell you they were on it quick which is very good. A inspector came and to my house was very friendly and I "thought" he was doing his job well. But FEMA E-mailed me this morning and said I was ineligible said I could live in my home. Well I already knew that I was just trying to get some help to repair water damages that the storm left me. My power pole at the end of my mobile home the water has washed the dirt from around it and it is leaning like it is about to fall I don't have money to pay an electrician to come check it also I lost lots of personal property in my shed I asked the inspector if he wanted to let's walk out there and look and he told me no. FEMA also said I could not prove I owned my place but I showed the inspector my TAX Bills. I did get some Extra SNAP Benefits

that I truly appreciated because I only  
get \$128.00 per month for my son  
and I, Mo. Haley you can see my  
income and you know living on 918.00  
per month is a struggle.

I ask that you please Help.
