Subject: Strategic Sourcing

Attachments: (2013-12-13) Strategic Sourcing (v01).pdf

---

This is for Rep. Lucas. I tried to strip out the unrelated procurement material and focus just on strategic sourcing. It's naturally easier if I talk through it in person, given some of the complex diagrams on the slides, but oh well.

I added a few links at the end if he wants to see a little more information on the subject from other sources (a university, the professional organization, the GAO, etc.). And obviously I'm around to handle questions whenever...thanks.
