Hey guys maybe you can help me spread the word on this.
I have a passion for keeping the waters clean and had an idea that I hope catches a lot of folks eyes. This tournament is different than any you've probably ever seen I'm asking folks to take a little extra step when they go fishing by picking up the trash around them weather they left it or not.
How the tournament works go out to your favorite body of water pick up the trash around it weigh the bag of trash and have a picture of you holding the bag on the scale by the water. You then enter the picture and weight into the drophook fishing app. Simple as that.
-This tournament is open to anyone in the US
-It will start July 1st and run the full month
-No scale? No problem there will be one winner randomly chosen from those that don't have a scale to weigh their trash bag.
-There will be prizes for the top 3 as of right now. That may grow as the amount of people that participate grows.
I am really looking forward to working with everyone on this and think it could be a spark to helping keep our lakes cleaner.
Helping me spread the word for this or contributing to the prizes would be a huge help!
Thank you so much
