---

Good afternoon,

I have a couple of things I wanted to see if I could get comment on from Gov. Haley or one of you on behalf of her office:

- There was a lawsuit filed today against SC regarding an online eye exam company not being allowed to operate in the state. From previous actions, Haley did not agree with legislators who decided not to allow the business. Now that the lawsuit has been filed against SC, does Gov. Haley have any comments regarding this case?
- Any statement regarding Trump's comments about the election being rigged?

Thank you for your time!
