Subject: SCE&G
Lt Governor Bryant,

Really.....SCE&G is going to get away with what they are doing to us. We have already paid for a sunken ship and now to rub salt into the wound they are not going to cut our rates the 18% they were awarded through not one, not two but nine increases. Then on top of this, they announce today, they made only a sad pathetic \$121M this quarter, my heart bleeds. Those dogs should have criminal charges brought against them if they do not refund our money and lower our rates by the 18% increase. I am so mad about this but nothing none of use poor folks can do. Good ole SCE&G does what it damn well pleases and always gets the approval they want.

Have you ever wondered who is getting money under the table for helping them in all of their shenanigans, I do and so does allot of other folks. We expect our officials to do something to help us and if you all cannot tell me who can and I will start a campaign to help with having our voices heard against SCE&G, they are just too big for their britches .

Thank you,
