Dear Governor Haley,

**Shut Down Domestic Jihad -- Declare Muslims Of The Americas (MOA)/Jamaat Ul-Fuqra  
Muslim Brotherhood and Taliban Foreign Terror Organizations**

**Reintroduce H.R. 973, Stop The Shariah Takeover, Ban Domestic Jihad**

Never before in the history of the United States has our constitutional republic been internally as well as externally threatened by an enemy so devious and evil as jihadist Islam.

Muslims of the Americas -- a front of the known Pakistani terrorist network Jamaat ul-Fuqra -- is training its radical adherents in the practice of violent jihad against the American people on U.S. soil with 22 known camps nationwide. As this group meets ALL three of the State Department's criteria to be designated a Foreign Terrorist Organization (FTO), I DEMAND Congress DO SO. Congress MUST SHUT DOWN terrorist MOA with its own terror designation and compel the same action from Obama's State Department. America's law enforcement cannot act effectively against this threat, as would-be terrorists train to attack us, without the FTO designation.

This DEMAND for FTO also applies to the Afghan Taliban, mass killers who are actively recruiting Americans via the Internet and through extremist networks.

I DEMAND Congress ABIDE BY THE CONSTITUTION and SHUT DOWN the clear and present danger posed by the most notorious "terror mosques" preaching jihad, violence and sedition against America and our Constitution, and promulgating subversive shariah law. Congress must further act to investigate, regulate and restrict the funding and construction by subversive foreign governments and the Muslim Brotherhood of "mega-mosques" on our sovereign territory, and of jihad promulgating cults, communities and communes.

Part of the jihadist shariah campaign of conquest is illicit deployment of our own judicial and cultural norms of civil liberties used against us. This MUST be halted at the State and federal levels, and authorities in the several States must act. Political correctness taken to irrational and dishonest extremes is leaving the United States military, national security and homeland defense against terrorist penetration and assault needlessly compromised, and vulnerable to our enemies.

Congress must force the Obama administration to designate the Muslim Brotherhood and Muslims of America for WHAT THEY ARE -- terrorist groups that hate and target Western, Christian and democratic America!

The Democrat Party will not defend America, as it has willfully blinded itself with multi-culturalism, identity politics and hostility to a proper respect for America's Founding. The United States is erected upon the wisdom of Western Civilization and our Judeo-Christian heritage of natural rights, classical & English common law, and Western theology & philosophy. The globalist Left rejects it all, in favor of modern, collectivist fads and blatant anti-Americanism.

Not so the historical Republican Party, conceived in liberty and respect for God's justice, paid in blood and sacrifice "to form a more perfect Union." Congress MUST immediately adopt a statute similar to that approved by 70 percent of Oklahoma voters defending the U.S. Constitution as the supreme law of the land, and banning the use of alien law in deciding court cases. Revisiting H.R. 973 to ban shariah and international law as a basis of our jurisprudence is a good start!

Congress MUST INVESTIGATE MUSLIM BROTHERHOOD AND STEALTH ISLAMIST PENETRATION of our nation AND our federal government!

Sincerely,

Gisela H Fehr
