Subject: LCI Feedback

Danny – apologize for not closing the loop with you yesterday but wanted to get your feedback on how the session went yesterday. Any issues or concerns from your end?

We have collected several due outs we owe back to the committee and I will send the list that we are working back to you today. Understand we will be making routine visits to the committee and Senator Ryberg indicated “in a couple of months”. Do you have a timeline or dates you want to set at this time?

Thanks again for the communication and dialogue getting ready for this meeting and I look forward to our subsequent sessions.

Joe

Joe, sorry about that. We need to do the presentation in electronic form in order that the audience can see. We have all of the equipment, so please just bring the file on a flash drive. Also, please bring 25 hard copies.

On the seasonal, we need one explaining why what we now have doesn't work, and then we need the one explaining the bill that we've filed on the state level and what it does. The order of the latest presentation is fine. I also should have mentioned that we need to delete the reference to "Option 2". No one else knows what the other options were, so I don't want to confuse matters. Just refer to the legislation filed yesterday by Senator Bryant - S 1069.

The talking points for these senators to talk to their congressmen don't need to be in the presentation. I just want the talking points for myself to give to the senators that want them.

Let me know if you need more from me.

DV

Danny

I checked my files and I have not received any e-mails from Tammy concerning tomorrow.

I also want to make sure we are on the same page with the slide concerning the Seasonal Legislation. We have the talking points for the committee and have put them up front (why the current law is out of conformity and what the Senators can say in support of this legislation). We provided the language from the draft legislation that you forwarded to in attempts to influence or change the federal law. What else specifically do you want in this area. I want to make sure we are providing you everything in advance.

How many copies of the slide show do you need - - 20? They are the same slides except we re-ordered them and took out the pre-filed bills. Any other issues that you know about for tomorrow? Thanks.

Joe
