South Carolina State Parks

at 12:00:00 on 7/17/2018 UTC · 🌐

The full moon is one of the most captivating scenes in the night sky, but did you know every month it's given a different name based on the behavior of plants, animals or weather during that month? In Native American culture, the July full moon is known as the "Full Buck Moon" because this is when male deer begin to regrow their antlers. On July 27, you'll have the chance to experience the Full Buck Moon from atop the Hunting Island Lighthouse! This program offers you a beautiful view as the sun sets along the tree line and the moon rises over the ocean. On your way back down we will provide you with a true vintage experience as you carry an oil lantern for guidance. \$10/person. Make a reservation by calling 843-838-7437.

Paula Odom Swaney What time does the Nature Center open? I just called and apparently no one was in. :) Can't wait to climb that lighthouse on the Full Moon.
