Subject: Gov. Haley on Nuclear Deal

Good morning, I hope you are doing well!

I was wondering is Governor Haley was planning a statement in response to the announcement this morning that Russia is no longer recognizing it's deal with the U.S on nuclear non-proliferation. It appears to be both directly and indirectly aimed at the unfinished MOX facility at Savannah River Site. I know this has been a hot button issue for South Carolina, so I wanted to reach out and see if she would be able to comment.

Thanks!
