**Attention to cultural values and norms is essential for improved outcomes in dementia care for American Indians and Alaska Natives (AIAN). This training will provide information on AIAN culture that affects the assessment, diagnosis, treatment, and support of dementia.**

## **Objectives:**

- **Identify aspects of tribal culture that are unique in the context of dementia**
- **Define tools to help guide productive conversation with patients and families**
- **Demonstrate ways to cope with difficult issues in the management and treatment of dementia**
