Weekly Camping Tip - March 11, 2010

Sandra Kennedy How do you keep rain water from getting between the tent and the groundcover? Some always seems to get there regardless of what we do.

at 20:23:03 on 3/11/2010 UTC

Jay Moore Sandra, make sure your ground cloth is slightly smaller then the foot print of you tent, and use your rain fly. Also, make sure to use the guy lines on your rain fly if your has them
