Subject: Aeronautics Proviso

The language from page 9 on the link below is the proviso transferring Aeronautics to DOT (sorry, but my home Adobe won't let me cut and paste segments). It appears that this proviso also moves funding sources as well, so I feel a little better about it than I did earlier in the evening, not knowing if the funding was going to be supplied. Please let me or Secretary St. Onge know Governor Haley's position on this and also if we need to provide any information on how this impacts the agency. Thanks!
