- (2) Current funding of programs affecting prenatal health to determine the appropriateness of the current distribution across programs, the amount needed, and the appropriate funding mechanisms to maximize the use of the dollars available.
- (3) Gaps in service within and between public and private sectors.
- (4) Prevention or health promotion strategies prior to conception and delivery.

Following the second report, an evaluation will be made to determine whether or not the Council should continue.

The South Carolina Department of Health and Environmental Control, Division of Maternal and Child Health shall provide staff and other services to the Council in cooperation with the Governor's Office.

The authority for this Council will expire on April 1, 1984.
