Subject: Verizon Q2 Government Promotions

Attachments: Q2_2016_Business_Equipment_Promo (2).docx

As we move into April of 2016 I wanted to pass along the Q2 Government Promotions which I have attached. I want to point out that the \$150 New Line Smartphone BIC has been extended until 6/30/2016 and we still have the \$100 off any 4G Tablet Promotion.

For the 2nd Quarter I wanted to provide you some information on Ocean 10. Ocean 10 is a Verizon partner that works in the video surveillance space with their Tsunami solution. This topic continues to come up in most meetings so I wanted to let everyone know how Verizon can assist. I have listed some of the features from their Tsunami solution along with a link to their webpage where you can view a quick 5 minute video on this solution (bottom of the webpage) and how they separate themselves when it comes to surveillance.

<http://www.ocean10security.com>

Plug and Play installation. Deployed and ready for Live View in just minutes

Leased based system INCLUDES maintenance, warranty and tech support

Completely independent system does not tie down your existing IT infrastructure

ALL video is stored internally on a 25 day loop. Retrieve just the content needed in Ultra HD

NO MONITORING STATION NEEDED. Every smart device is a command center

Unparalleled Night Vision infrared in absolute zero light

View an entire 360° area with one Tsunami system

Court approved time and date signature. Same processor used in FBI interview rooms

Standard connection methods include: * Verizon 4G Cellular * WiFi * Direct Network Cable * Wireless Point to Point

Let me know if you have any questions or would like to set up a time to discuss the Tsunami or any of our other IoT solutions.
