NATIONAL SCIENCE FOUNDATION  
4201 WILSON BOULEVARD, ARLINGTON, VA 22230  
OFFICE OF LEGISLATIVE AND PUBLIC  
AFFAIRS

Award Date: Sep. 12, 2015  
Award No.: 1534260

We are pleased to notify you regarding a recent National Science Foundation (NSF) award made to University of South Carolina at Columbia with an intended total amount of \$840,000.00.

This project, entitled "DMREF: Collaborative Research: Design and Discovery of Multimetallic Heterogeneous Catalysts for a Future Biorefining Industry," is under the direction of Andreas Heyden. The award starts Sep. 15, 2015.

The abstract and other information regarding this award will soon be publicly available via the NSF Award Abstracts database at  
<<http://www.nsf.gov/awardsearch/showAward.do?AwardNumber=1534260>>.

The National Science Foundation (NSF) supports research, innovation, and discovery that provides the foundation for economic growth in this country. By advancing the frontiers of science and engineering, our nation can develop the knowledge and cutting edge technologies needed to address the challenges we face today and will face in the future.

We greatly appreciate your interest in the work of the National Science Foundation. If you are interested in developing a press release or have additional questions, please contact Amanda Hallberg Greenwell, Head, Office of Legislative and Public Affairs at (703) 292-8070.
