

ABOLISHING INJUSTICE IN THE 21<sup>ST</sup> CENTURY

Did you know an estimated **100,000 youth are trafficked domestically each year?**

Because of this shocking truth, we developed an astounding high school curriculum for high school aged students called *Bodies Are Not Commodities*.

You have received this letter because you hold an influential role in the life of a student who may be vulnerable to human trafficking or you know someone who does.

*Bodies Are Not Commodities* is a great, easy-to-use curriculum that has been developed and tested by educators.

**Key Curriculum Facts:**

- Five multimedia and interactive sessions
- Incorporation of vocabulary and learning labs
- Includes a facilitator guide, a student guide, and video downloads
- Supplementary curriculum for Social Studies, Health, and English
- Fully aligned to state standards

As you may know, A21 is a non-profit organization that seeks to bring an end to modern-day slavery through the 4“P” Paradigm: prevention, protection, prosecution, and partnership.

We believe education is the key to ending human trafficking and that **you can help!**

*Bodies Are Not Commodities* is designed to equip students with the tools necessary to recognize potentially dangerous situations while empowering them to become modern-day abolitionists.

It is my sincere hope that you will consider supporting and implementing *Bodies Are Not Commodities* through purchasing it on our website, spreading the word, or implementing it into the schools where you have direct influence.

Our team will be following up with you over the next few weeks to answer any questions you may have and discuss future collaboration.

Education is key,
