Bound Tree Medical has been a leading supplier of emergency preparedness products for over 35 years. With officers, SWAT teams and tactical officers being deployed more frequently to protect citizens in high-risk scenarios, Bound Tree understands the need for products geared toward this element of response.

Protect yourself and those around you by carrying an Officer Down Individual First Aid Kit (IFAK). This potentially life-saving kit is designed with the dynamic needs of the first responder in mind, allowing you to respond quickly to emergent scenarios. This kit is designed to help address the excessive bleeding of traumatic injuries, such as gunshots and stab wounds.

Now through December 31, use promo code DEC15 to save \$20.00 on an IFAK.
