Hello. Is there a way to create an availability notification on the new system? I can't seem to find it. Also, the descriptions no longer indicate if a site is pull through or back in. Will that be updated? Thank you.

Not at this time, but it is a feature that we are hoping to add later. Also, which park were you looking at about the "back in" or "pull through" sites? I have looked at some and this information is included and you can see it once you click on a site.

Hmmm, maybe I missed it. I was looking at Calhoun falls.

I went back and looked, I don't see anything on the CF sites. Thanks for the help.

We are looking into this now. Some of the information, was up to the individual park to provide. If you look at Colleton State Park, for example, and look at a site, you can see that they do have this information provided.

Ok. Hopefully they will get it updated soon. Thanks

You can see that "Access" says "Back In"

I see that. Seems CF jusy didn't enter their info.
