This is the letter we talked about earlier this week coming from SLED and Public Safety?

What is Tony's deadline here?

Hey Chaney, we may end up doing a story this weekend about police shootings in light of the Ernest Satterwhite dashcam video issue. I could use at least an update about the commission's work by tomorrow early afternoon. And if the report's not done, have they come up with any preliminary recommendations regarding police shootings?
Thanks
