Seasons Greetings and a Peaceful New Year 2015

Dear Governor,

Please accept my congratulations on your reelection till 2019. I have just finished reading your above excellent book and have become your fan. I have also lived and worked in the Middle East countries of Oman, UAE and Saudi Arabia, Belgium for over 2 decades before returning to India. I can understand and appreciate the hardships faced by expatriates. From your book, I can gather that your endurance, planning and persistence has impressed the people around you (politicians) and that you were able to outdo with your sheer strength and will power to fight for what you believe is right. With roots as a sikhni, (this is what India teaches us, values) you have shown world that you are thorough in your thoughts about how local, state and federal government should be run and take care of US interests. Best regards,

Ramesh Kumar Nanjundaiya
