February 9, 2015

To: The Honorable Nikki R. Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, South Carolina 29201

Dear Governor Haley:

First, as a native South Carolinian, graduate of Clemson University (class of 1963), and home owner in South Carolina, I thank you for your outstanding leadership of South Carolina during these difficult times. From New Mexico, I follow your accomplishments on Facebook and in the national media.

Second, I am including a recent publication National Security Science by Los Alamos National. You will see that I wrote most of the information in the publication. The document will provide you with a thorough description of the US nuclear weapons program vice the programs of our potential adversaries. I am certain that you will find the publication "Back into the Cold" very interesting.

If ever I can be of assistance to you on a science or technology issue, please contact me

Again, I wish you the very best in your exceptional leadership efforts and in your future.

Sincerely,

***Houston T. Hawkins***
