Goose Creek, SC · Dec 03, 2015

I'm signing because this is my livelihood. This is my job. Me and my family depend on the future of this great plant.

Summerville, SC · Dec 03, 2015

Point A) Santee Cooper has already adjusted for/projected the potential loss of the aluminum plant as a customer according to recently released board meeting documents from July 2015. Point B) The required power load is already being transmitted through the existing infrastructure and an increase in power demands is not foreseeable due to current market conditions. Point C) 75% of the aforementioned power load is currently being provided by an out-of-state provider Such is the problem with state sanctioned "natural monopolies" such as utility providers. Either stick to your mission statement of providing affordable power and encouraging economic development, or get the state-supported power cronies out of the way and let the other power company take care of business.
