

7-6-15

Governor Nikki Haley,

As I sit back and watch the news and look at social media I am appalled at how far you have let things get out of hand. Now we must worry about the KKK & Black panthers protesting at the state house. This is nonsense and should not be going on!! I have lived in the south my whole life 32 years and I fly my Confederate flag with pride for it is history nothing more! If you want to start taking flags down you do not have the right to pick and choose they must all come down, gay pride flag, Waffle flag, Black panther party, Hispanic Heritage the list goes on and on, and on that note you stated this has ruined your career no this did not ruin your career you yourself and no one else ruined your career!!
