This is Community Activist Jack Logan from Greenville South Carolina from Greenville South Carolina. In Greenville South Carolina standing with State Senator Karl Allen and Rick Webb in Greenville South Carolina 598 Pendleton Street a white male stopped and spoke to Senator Allen and I by first name. The man started crying saying his two small children was afraid to go to school today after The Presidential election. One of his children is black and the other one is hispanic. Then on yesterday visting a young father myself in Greenville South Carolina. I ask his two small children who did they want to become President. The two kids said Hillary Clinton. I ask them why. The kids said their teachers told them not to like Donald Trump. These kids attend Sterling Elementary School in Greenville. No school should spread hate. Jack Logan 8643031030
