I think the chart in the second link answers the main question of how much goes to the federal government in gas tax versus how much comes back from the federal government to SC by way of the programs funded by the gas tax, but take a look and let me know how you want the information compiled.

Hi Ms. McNicoll,

I hope all is well. I have the information you have requested regarding the transportation funding. Unfortunately, it takes 1-2 years for DOT to compile their data, so right now the most recent year for data is FY 2015. Here is a link to the funding for each state from FY 2006 - FY 2015.

Also, here is the table for the rate of return for 2015:

Please do not hesitate to reach out if you need any additional information.

Thank you,
Addie

Good Afternoon Mr. Gross,

I am trying to find some information for the Lt. Governor regarding Federal Gas Tax. Danny Varat, chief of Staff, suggested that you may be able to help. We are trying to find out the total amount SC sent to the federal government in gas tax and how much of that money came back to SC via the programs that it funds. If possible, we would like the numbers for the last three years, if not we would like the last year. Thank you for your help.

Best Regards,
