South Carolina State Parks

at 13:00:01 on 12/05/2014 UTC

Mary DID have a little lamb, but this isn't hers! These belong to the Animal Forest's newest habitat at Charles Towne Landing. The Domestic Livestock exhibit will showcase animals the colonists would have had during their time at Charles Towne. It will boast sheep, goats and a hog and explain their historical importance. Look for more updates on when this awesome new addition will be open to the public!

Spring Slagle Love this!
