Rob, can you call him and give him DBecker's number? I can forward him the latest EMD release.

Subject: Questions about Hermine

Here are some questions regarding the state's preparations for Hermine.

What agencies are most involved in responding to a storm such as this one? How many state personnel are involved?

What websites or other media outlets should residents monitor for information?

After the storm passes, what agencies can help residents recover?

Whatever else you think might be relevant or want to add.
