NOW OPEN FOR A LIMITED ENGAGEMENT

South Carolina STATE MUSEUM

A century ago, on April 15, 1912, *Titanic*, the biggest ocean liner in history, sank after colliding with an iceberg, claiming more than 1,500 lives. The South Carolina State Museum will observe the centennial of the tragedy which continues to resonate over time with *Titanic: The Artifact Exhibition*. More than 125 fascinating artifacts conserved from *Titanic's* debris field will be showcased, offering museum guests a poignant look at this iconic ship and its passengers.

The exhibition has been designed with a focus on the legendary *RMS Titanic's* compelling human stories, as best told through these authentic artifacts and extensive recreations of rooms from the storied ship.
