**Subject:** CON amendment

Thank you for being patient! The Committee adopted a provision yesterday that was conceptual rather than on paper – so we had to work on some language. You will also see that I added a severability clause.

The committee report, with amendment, will be read across the desk on Tuesday. As was noted in the Committee meeting Thursday, Sen. Alexander will place an objection – not a minority report - on the bill for the time being.

Have a nice weekend.

Martha
