**Subject:** May's Complimentary Webinar: Autism - Developing an Understanding

---

### **Free Webinar: Autism - Developing an Understanding**

*Each month CTRI offers a complimentary webinar.*

This webinar begins with a brief overview of the fundamental aspects of autism - characteristics of people on the spectrum, appropriate terms for working in the field, common myths and approaches, as well as new diagnostic criteria. When the DSM-5 was published in 2013, one of its most important changes was in its understanding of Autism Spectrum Disorder. This webinar will review those changes that include the removal of pervasive developmental disorder not otherwise specified and Asperger's, new diagnostic criteria, and implications regarding communication. It will also consider critiques and frequently asked questions regarding the Autism Spectrum Disorders.

---

### **Pre-recorded Webinars**

CTRI provides a variety of other pre-recorded videos that are introductory, abbreviated versions of our full day workshops available for purchase. These 60-75 minute webinars allow you to access training at a time convenient to you.

Some of our most popular pre-recorded webinars include:

- Anxiety – Practical Intervention Strategies
- Mindfulness – As a Counseling Tool
- Motivating Change – Strategies for Approaching Resistance
- Self-Injury Behavior in Youth – Strategies for Helping – Part 2
