Email:	stacey.smith@scdmv.net
Phone:	<no response>
Fax:	<no response>

Comments:

To expedite the end of day process and avoid employees working after 5:15pm. It would be helpful if there were a function in phoenix under the maintain cash drawer screen that allows the user and manager to turn in their petty cash prior to closing that deducts the petty cash total from the remainder of the cash drawer total and reflects the time the petty cash has been turned in for that day.
