### How Does Math, Science, Physics Prove God's Existence?

How Does Math, Science, Physics Prove God's Existence?

Four Blood Moons: Does Math, Science Prove God?: Leaving Babylon describes the intersection of science, math, history, based on the established on the Biblical Calendar given to Moses directly by Yahweh in Torah, not the contrived Gregorian Calendar from 332 a.d. that has left us blind and deaf, not knowing the Times or Seasons. These intersections of the science, math, history and scripture are corroborated by the formal Boolean logical syllogisms leaving the reader with a no compromise choice:

We can know Truth from pagan fallacy which is the education this author received in his Western Christianity; now we face the choice: either serve the One Creator Yahweh or serve mythical pagan gods which has been incorporated into our anemic Western Christianity. Four Blood Moons: Leaving Babylon also describes how we arrived at this breathtaking mixture of fallacy. Read [Four Blood Moons: Leaving Babylon to know where we came from, where we are and where we're going and how to get there](#)

.Four Blood Moons: Leaving Babylon describes the journey of the author whose curiosity was sparked upon hearing about this rare historical occurrence appearing only a few times in several thousand years upon the Biblical Feasts of Passover and Sukkot 2014 and 2015. These Lunar Tetrads are verified by NASA while their occurrences intersect with the Biblical Feasts as Yahweh scheduled on His Biblical calendar. The study started as study on Passover, but included by default to include the Feasts, the Torah, revealing mixture of Western Christianity assimilated over the centuries from the pagan celebrations having no part of Yahweh's calendar or Feasts. These Blood Moons are highly relevant since they reveal the times and seasons appointed and scheduled by Yahweh from the beginning of creation. The revealing of times, seasons and historical events as applied to current events is no less than stunning to this author. Discoveries of revisions including additions and exclusions of scripture has also stunned this author leaving me challenged to make fundamental changes or continue in Babylonian pagan tradition. Read to discover these stunning discoveries that challenged the basis of my faith; yet, leaving me more at peace throughout these difficult times with a deeper love for Yahweh now than I ever imagined through the learning of His magnificent plan for mankind.

Cyrus King Media: – Freelance journalism, politics, religion, technology, engineering, research, with a passion for watchdog journalism, conservative patriot who honors and reveres the heroes of our faith and nation such as Dietrich Bonhoeffer, Winston Churchill and the great thinkers such as Albert Einstein and Fr. Robert Spitzer who taught me the rational logical syllogism, the four kinds of love, life purpose and four different proofs for God's Existence. I learned more in your studies than the previous years in church.

Cyrus King Media purposes to publish media including books, ebooks and music of profound significance to our personal, national, global and spiritual life; dispel lies while filling our souls with life. We recognize many of those confronted may take intensely adversarial attitudes while others gratefully acknowledge new instruction and change course accordingly.

My passion is to levy a full scale undoing of the insidious wickedness of Parental Alienation. The needs and damage these kids endure while they are completely dependent on those caretakers is breathtaking; is a spiritual and national crisis.
