Governor Nikki Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, SC 29201

Dear Governor Haley,

As an American sportsman who values public lands for hunting and fishing, I request that you actively pledge your support for America's public lands legacy and reject efforts to transfer federal public lands to individual states.

America's public lands managed by agencies such as the U.S. Forest Service and Bureau of Land Management provide important fish and wildlife habitat and public access for hunting and fishing. Millions of Americans use these lands to spend time with their families, put food on their tables and enjoy the great outdoors.

States are simply not equipped to support the enormous costs associated with managing public lands. State ownership would result in the fire sale of public lands to billionaires and foreign companies, where millions of acres would be closed to public access and an American birthright would be lost.

Sincerely,

Mr. Jay Cauthen
