**Subject:** Correction: ACL Request for interventions regarding unsafe wandering

---

Dear ADI and ADSSP Grantees and Partners,

Jane Tilly from the Administration for Community Living has requested that we ask the grantees and partners if they could share any innovative methods or programs for handling unsafe wandering and exit-seeking when it occurs among people with dementia in community settings, like adult day services or assisted living. If you know of any innovative methods or programs, please send your reply to [jane.tilly@acl.hhs.gov](mailto:jane.tilly@acl.hhs.gov) with a copy to [EGould@RTI.org](mailto:EGould@RTI.org) by December 1, 2014.

Many thanks,

ADSSP Resource Center team
