**Subject:** SCAC/OESA Expanding Supplier Opportunities - Register Now

---

## Register Today for the May 15 SCAC/OESA Meeting at CU-ICAR

### Need to Know

SCAC/OESA May 15  
Expansion or New Construction?  
CU-ICAR Concept Vehicle

As vehicle production increases in North America, OEM's and Suppliers evaluate capacity constraints, announce expansions in the Southeast and consider new investments.

The SC Automotive Council (SCAC) and the Original Equipment Suppliers Association (OESA), invite OEM's and Automotive Suppliers to attend a dynamic Supplier Roundtable to address critical supply chain considerations.

### SCAC/OESA Partner to present

### "Expanding Supplier Opportunities"

Thursday, May 15 at CU-ICAR

#### Register Now

to attend the Southeast OEM and Supplier event that will draw industry leaders to discuss challenges and opportunities which impact the automotive supply chain.

The day begins with a special tour of [ZF Transmissions Gray Court](#) hosted by Dr. Ludger Reckmann, VP of ZF Transmissions Gray Court, ZF North America, Inc. Space is limited for this optional tour and Transportation to ZF is provided from CU-ICAR.

Please click [Agenda](#) for details of the meeting.

Registration open only to members of SCMA/SCAC, OESA, Sponsors, SCAC Affiliate members and Industry guests. Please contact [Catherine Hayes](#) for select **Sponsorship** and **Affiliate Membership** opportunities.

## Facility Expansion or New Construction

A Survey to serve the SE auto industry

A key benefit to membership in the SCAC is benchmarking and sharing best practices in the industry. When considering expansion or new construction, it may prove useful to gauge the costs of construction in the current market. We've designed a survey to compare your experiences on pricing for facility construction projects executed in the last five years.

Please consider taking this 2 minute blind survey to provide useful data which will be published in a report available to the SCAC. All responses and identity will remain confidential and only the cumulative data will be shared.

Take the survey at this link, [Construction Survey](#), and thank you for your participation.

## CU-ICAR to Unveil Deep Orange Vehicle

at 2014 CAR Management Briefing Seminars in Traverse City, MI

The 4th generation concept vehicle combines BMW DNA with a transformative design. A cost efficient manufacturing plan defines how this low volume derivative can be assembled with minimal impact on existing BMW production processes. Learn more about Deep Orange at [CU-ICAR Deep Orange](#).

To join the SC Automotive Council as a manufacturer or Affiliate Member, please contact me or click the link to [SC Automotive Council](#).

I welcome your suggestions for topics, speakers or programs that can support the goals of your organization.

Kind regards,  
Catherine Hayes  
SC Manufacturers Alliance  
*Executive Director of the SC Automotive Council*
