Columbia, SC 29211

RE: Character-Governors

Dear Governor Haley;

The 2015 Character Index for the governors of the 50 states has been completed. The Character Index is based on an unpublished study done at a small midwestern college. We observed a variety of individual attributes and relationship to moral, spiritual and character. A partial list of the attributes and the related character categories follows:

CHARACTER CHART

| <u>Character</u> | <u>Attributes</u> |
|------------------|-------------------------|
| ENLIGHTENED | Inspirational |
| EXCELLENT | Truthful, Faithful |
| MORAL | Honest, Responsible |
| SUFFICIENT | Capable, Trustworthy |
| AVERAGE (+) | Serves Others |
| - | Other Centered |
| AVERAGE (-) | Self Centered |
| DEFICIENT | Deceptive, Selfish, |
| | Blames Others, Lust for |
| | Money, Power or Control |
| IMMORAL | Dishonest, Criminal, |
| | Tryannical, Bully, |
| | Lie Cheat or Steal |
| DESTRUCTIVE | Sociopath, Psychopath |

Though initially I used the character concepts to determine chance of default on commercial bank loans, I later expanded these protocols to other groups including politicians such as the attached list of governors.

Numerous complex factors including; hereditary, intelligence, education, experience, health, beliefs, goals, values, persistence and character make up each individual. Constructive and positive accomplishments occur around exceptional people while destructive and negative occurrences happen around dysfunctional people. You are a responsible and honest person and therefore deserving of this gift.

This information is my sole subjective opinion and not any financial, political, religious or other organization.
