Subject: Haile Mine

Dear Ms Adams

This is a follow up email to previous emails and repeated phone calls to you since February regarding what should be a simple task:

Could I please get copies of press releases and other public statements made by Gov. Haley about the Haile Gold Mine in Lancaster County? I would also like to know if any communication between the governor and various state agencies, such as DHEC, during the permitting process is available to the public.

As previously stated, I am writing a book on the history and rebirth of the mine commissioned by the owners. The mine has a wonderful, and largely untold history, which should make the book of interest to a wide audience of South Carolinians. It will also underscore the importance of corporate development in an economically depressed area of the state, something that I would think has the Governor's support.

I would appreciate hearing from you.
