RESOLUTION OPPOSING IMPOSITION OF A MOTOR FUEL TAX
FOR FEDERAL DEFICIT REDUCTION

BY THE SOUTH CAROLINA HIGHWAYS
AND PUBLIC TRANSPORTATION COMMISSION
OCTOBER 20, 1988

WHEREAS, a motor fuel tax increase to lower the federal deficit has been proposed; and

WHEREAS, the tax measure would unfairly place the tax burden on states dependent on the automobile and trucking industry for the movement of people and goods; and

WHEREAS, the deficit reduction tax on motor fuel will undermine the highway user fee concept for highway improvements; and

WHEREAS, a great need still exists to continue to upgrade and replace this country's transportation infrastructure and any tax increases on motor fuel should be dedicated to that purpose;

NOW, THEREFORE, BE IT RESOLVED, that while the South Carolina State Highways and Public Transportation Commission supports efforts to reduce the federal deficit, it opposes the imposition of a motor fuel tax to achieve deficit reduction.

THE COMMISSION FURTHER RESOLVES that its members be encouraged to work with their individual Congressmen in opposing this proposed fuel tax increase, and that a copy of this resolution be mailed to each member of the South Carolina Congressional Delegation and each member of the South Carolina General Assembly and the Special Select Committee of Commissions and Boards of the American Association of State Highway and Transportation Officials.

This will enable the Department to comply with FHWA requirements that a structural load rating analysis be performed on all bridges on the State Bridge Inventory. It is recommended that the Commission approve the entering into this contract by the Department.

The estimated cost for performing this work is \$1,200,000.

Recommendations - 10/20/88

JAMES ISLAND EXPRESSWAY FILE 10.158A.7
SUPPLEMENTAL AGREEMENT FOR CONSTRUCTION MANAGEMENT

At the present time, the Department does not have sufficient staff in the Charleston District to provide construction management services on the James Island Expressway project in Charleston County. It is recommended that the Department enter into a supplemental agreement with the design consultant on this project to provide these services. Consultant services are presently being used for construction management on the previous three contracts. Negotiations with the consultant are now underway due to the time constraints on mobilizing inspection personnel. The cost for these services is estimated not to exceed \$1,750,000. These funds will be provided as part of the construction contract under the Federal Discretionary Bridge Replacement Program.

PROPOSED REGULATIONS
GOVERNING TANDEM TRAILER COMBINATIONS
AND OTHER LARGER VEHICLES

The concurrence of the Commission is sought in publishing Regulations 63-600 through 607, Tandem Trailer Combination and Other Larger Vehicle Access Control Act.

The proposed regulations permit truck tractors pulling twin trailers; trucks, trailers, and the other vehicles in excess of 96 inches wide, but not exceeding 102 inches wide; and truck tractor-trailer combinations greater than 60 feet in length, to operate on highways identified as the National Truck Network and other roads specifically designated by the Department. The Department will consider the need for service, economic benefits, safety, roadway capabilities, and public convenience in selecting, approving, restricting or disapproving roads as part of the South Carolina Truck Network. Application for additions of local roads to the Network may originate through local authorities. Provisions for reasonable access are proposed, to allow three miles of travel from the established Network for terminals, food, fuel, repairs and rest. Reasonable access to terminals beyond the three mile limit, and to specific Industrial, Commercial and Warehousing sites may be petitioned. Reasonable access to points of loading and unloading for purposes of local delivery is proposed for household goods carriers, auto transporters, and truck tractor-trailer combinations whose trailer length does not exceed 28½ feet. The Department may approve, disapprove, remove or restrict an addition to or portion of the Network, or access, in the overriding interest of safety, roadway capability, and public convenience.

In accordance with the Administrative Procedures Act, a drafting notice was published in the April, 1988 edition of the State Register, and a Notice of Proposed Regulation and Hearing was published in the May edition. No requests for a hearing were registered, and in accordance with procedure, a public hearing was not required.

AMENDMENT TO THE TRANSIT MANAGEMENT ASSISTANCE ALLOCATION
FOR
LOWCOUNTRY REGIONAL TRANSPORTATION AUTHORITY

In June 1987, a comprehensive management and performance audit of the Lowcountry Regional Transportation Authority (LRTA) was completed and presented to the Department and the LRTA Board of Directors. The audit contained several crucial recommendations which required immediate action of the LRTA Board and the Department. One of the audit recommendations is the need for a Director of Accounting and Finance position to be established within the LRTA's organization. The LRTA Board of Directors has requested assistance from the Department to implement this audit recommendation.

It is recommended that the Commission authorize the allocation of \$22,000 (80%) in unexpended UMTA Section 18 funds and \$2,750 (10%) in unexpended State General Funds to assist the LRTA in establishing a Director of Accounting and Finance position. The LRTA has agreed to provide the remaining non-federal share in local funds to match the UMTA Section 18 funds. (Item # PT-050)
