Hi! We have just moved to Beaufort and are looking to explore the state parks in South Carolina by bike. We have more fitness bikes rather than proper mountain bikes so don't want the really bumpy, steep trails etc but we do want to get about and don't mind it being a bit off road. Can you recommend us some starting points please? I have looked on the website but it is difficult to tell if parks will be suitable for us or not. Thank you, Sylvia
