Office of the Governor  
1205 Pendleton Street  
Columbia, S.C. 29201

Gov. Nikki R. Haley

As the Speaker for the Republican Party's response to the State of the Union address you were awesome. Your speech brought truth and transparencies that we have not hear in my lifetime (16 years). Republican as well as democrat's share responsible in the role why the govern-ment is so dysfunctional and broken. You have been a shining light in leadership skills in trying to do what right for our state and things you said could apply words of wisdom to the rest of our Country.

We believe this next election for the President of the U.S. will change the course of history for the U.S. If we don't elect the right person for the right reason, it could be the end of the U.S. as we know it. We have loss our way to what the U.S. stood for. We need a President for all the people regard less of race, color, rich or poor and nationality. Someone who will follow the constitution and the laws of this nation

We will encouraged you to speak more about the state of affairs in South Carolina and in America. We need a voice of truth, ethic values and being honest with people about everything. Lots of us get up every day go to work to do the right things. Never take anything unless we have earn it. Paid our taxes help others in need, help our children by rising them right to get the best education as possible. So that our children can become good and responsible citizens of our country. Something to practice is to do a good deed for some one every day. Our politician in this state could practice this in building good relationship

with each other to serve the people of S.C. in such things as Education, better roads and in other reforms. There is no reason why we cannot have the best education for our children. A good education is a step up and out for our children. We suffer because all our politicians talk about it all the time and do nothing about it. In Greenwood we have state of art school buildings. We need the best teachers in them. We don't mind paying a extra dollar or two if the money is spend there. The same with our roads one to two cents on gasoline tax - only to be spent on roads or bridges and not spend on things that our politician want in order to get reelected. We need action now.

We believe you can make a difference in moving S.C. forward. Because if we don't get it right now we will be paying twice to get it right. Cost a little more now but saves money in the long run. Thank you so much for what you have done for S.C. this past year

Yours truly

Richard L. Donna Jr
