**2003-2004 LIFE Scholarship Informational Report**

The Legislative Incentives for Future Excellence (LIFE) Scholarship was established by the General Assembly during the 1998 legislative session and was signed into law on June 19, 1998. The LIFE Scholarship Program is a merit-based scholarship designed to increase access to higher education, improve the employability of South Carolina students, provide incentives for students to be better prepared for college, improve SAT scores, and encourage students to graduate from college on time.

During the 2003 legislative session, there were no changes made to the LIFE Scholarship Program. Forty million of the funding was allocated from the proceeds generated by the S.C. Education Lottery. Students attending a four-year public or independent institution received up to the cost-of-tuition, not to exceed \$4,700, plus a \$300 book allowance, while students attending a two-year public or technical institution received up to the cost-of-tuition plus a \$300 book allowance. In addition, students attending the two-year independent institution received up to the cost-of-tuition at the two-year regional campuses plus a \$300 book allowance.

In order to qualify for the LIFE Scholarship as a first-time entering freshman at a four-year institution, students were required to meet two of the following three criteria: 1) earn a 3.0 cumulative grade point average (GPA) based on a 4.0 scale or the Uniform Grading Scale (UGS), 2) earn a minimum score of 1100 on the SAT (24 ACT), 3) rank in the top 30% of the graduating class. The average SAT score for first-time entering freshmen in 2003 was 1164 (ACT scores were converted to SAT).

To earn or renew scholarship eligibility, the student is required to 1) meet all general eligibility criteria; 2) earn a cumulative 3.0 GPA on a 4.0 scale by the end of each academic year (fall, spring, summer) consistent with the policies and procedures of the institution; and 3) earn an average of 30 credit hours by the end of each academic year (fall, spring, summer) equaling a minimum of 30 credit hours if a rising sophomore, 60 credit hours if a rising junior, or 90 credit hours if a rising senior.

As of August 18, 2004, the Commission on Higher Education awarded 26,669 students, totaling \$119 million for the 2003-2004 academic year. This is an 8% increase of the number of students awarded in 2002-03. The following reports provide additional information regarding the 2003-2004 LIFE Scholarship recipients including: number of students awarded and the amount disbursed by institution; recipients by classification; Fall 2003 retention; recipients by ethnicity; recipients by gender; first-time

entering freshman by county of origin; and recipients by county of origin. These reports may also be found on the Commission's Website at [www.chc.sc.gov](http://www.chc.sc.gov).
