South Carolina State Parks

at 12:48:42 on 5/05/2017 UTC · 🌐

They're Baaaaccck!

Massive 500 to 1,000 pound leatherback sea turtles are being sighted from the beach at Myrtle Beach State Park! These massive beasts prey exclusively on jellyfish. Although leatherbacks are very rare nesters in South Carolina, they can usually be observed throughout the entire month of May. Come learn more about sea turtles during our fifth annual Totally Turtle Day on Saturday, May 6. More info here: http://southcarolinaparks.com/files/State%20Parks%20Files/Myrtle%20Beach/MB_Turtles2017.pdf
