Dear Governor:

I am writing to get you to simply title on vehicles and manufactured homes. You need state seller and buyer on the back of the and color code the blanks that are to be filled. The terms purchaser and owner can be confusing to the average layman or person. Therefore, words seller and buyer should only be on back of the title. Please take this in to simplify the transferring of a title.

I have seen too many times where people mess up. So, please simply this and help make it simpler.

Sincerely,  
Frank C
