Red Hat Cloud Infrastructure Webcast Series

Looking to move to an enterprise private cloud or expand your existing cloud infrastructure? For your high SLA workloads that demand maximum uptime, Red Hat Enterprise Virtualization and its high availability features can be combined with CloudForms and its broad cloud management functionality. This combined solution can be used to create and extend a cloud infrastructure consisting of multiple heterogeneous virtualization technologies, and even public cloud providers, all managed from a single interface. [Join Red Hat and Carahsoft <http://my.carahsoft.com/acton/ct/2177/s-03cb-1507/Bct/l-03db/l-03db:9834/ct1_0/1?sid=eqXymu7mx>](http://my.carahsoft.com/acton/ct/2177/s-03cb-1507/Bct/l-03db/l-03db:9834/ct1_0/1?sid=eqXymu7mx) as we dive deeper into Red Hat Cloud Infrastructure and each of its components.

Session 1 - Red Hat Satellite

Session 2 - Red Hat CloudForms

Session 3 - Red Hat Enterprise Linux OpenStack Platform
