COLLEGE HOUSING BONDS - Policy as to Revenue Coverage Required

At the opening of the meeting the Board gave consideration to applications from colleges for approval to issue College Housing Bonds for the construction of proposed new dormitory facilities. In reviewing these applications particular consideration was given to Board policy regarding revenue coverage of this type obligation. After some discussion the following policy was unanimously agreed to by the Board.

"In any proposal for the issuance of College Housing Bonds, the Board shall require a showing by the institution concerned that its projected housing revenue from existing facilities (excluding proposed new buildings) will equal at least 125% of the total future principal and interest payments on both (a) any bonds then outstanding, and (b) the bonds proposed to be issued. The required revenue projection shall be based upon actual collections of the year preceding the date of the application to the Board. Principal and interest costs of the proposed bond issue shall be based on a maturity period of not more than twenty years, at such rate of interest as may be required by the Board at the time."

2. An issue of \$1,345,000.00 of State Notes for the Department of Corrections for the construction of a new unit of the State Penitentiary for (No. 14A)

youthful offenders. (This issue is in addition to an original authorization of \$155,000.00.) (No. 15)

3. An issue of \$265,000.00 of State Notes for construction of Armories as provided for in the 1964-65 General Appropriation Act. (No. 16)

The Board also approved the investment of Retirement System funds in each of the above three issues.

STATE COLLEGES - DEFINITION OF STUDENT RESIDENCY

Attached hereto as a part of the minutes is a statement developed by authorities of the State-supported colleges containing a definition of State residency for determination of tuition and fee purposes. This statement and definition was proposed for approval by the Budget and Control Board. (No. 17)

The Board gave its unanimous approval to the proposed statement on condition that it be submitted to the Attorney General for his opinion as to whether or not the statement was in any way in conflict with law.

(Following this meeting of the Board the statement referred to above was reviewed by the Attorney General and given his approval.)

UNIVERSITY OF SOUTH CAROLINA - FEES FOR GRADUATE STUDENT ASSISTANTS

The University of South Carolina submitted the following statement for the Board's approval relating to fees to be charged Graduate Student Assistants for University courses.

"Graduate Assistants who are employees of the University and perform certain specific duties for a stipend and are regularly enrolled in the Graduate School may enroll for as many as three courses for a fee of \$10.00 per course. There will be no other remission of fees except as provided by law."

The Board unanimously approved the above request.

ADJUTANT GENERAL - REQUEST FOR SALARY INCREASE OF COLONEL WITHERS

Adjutant General Frank Pinckney requested the Board's approval of an increase in the salary of Colonel Withers of his office from \$6,900.00 to \$8,100.00 per year. It was proposed that the additional \$1,200.00 be paid Colonel Withers

from appropriations for construction of armories in view of his connection with this program.

The Board declined to approve the request since it was felt that construction appropriations were not available for salary purposes.

CIVIL DEFENSE AGENCY - INCREASE IN SALARY OF DIRECTOR

The Board approved an increase in the salary of the Director of the Civil Defense Agency from \$10,500.00 to \$12,000.00 per year based on increased responsibilities. The approved increase was made effective immediately.

CLEMSON COLLEGE - ALLOCATION OF EMERGENCY PEST CONTROL FUNDS

The Board had before it a request from Clemson College for an allocation of \$13,000.00 from the current year's appropriation for Emergency Pest Control to complete the fire ant eradication program in four lower State counties (\$5,000.00) and to clear up small areas in Orangeburg and Jasper Counties (\$8,000.00).

The Board approved the above allocation as requested.

STATE LIBRARY BOARD - FEASIBILITY STUDY FOR STATE LIBRARY BUILDING

Miss Estellene Walker, Director of the State Library Board, asked the Board's approval of the expenditure of \$12,100.00 of available Federal Funds for a study to determine the feasibility of constructing a library building for the State Library Board. It was understood that Federal Funds for the construction of such a facility may be available.

The Board approved the request.

FEDERAL HIGHER EDUCATION FACILITIES ACT - APPROVAL OF STATE ADMINISTRATION

The Congress of the United States recently passed the Federal Higher Education Facilities Act of 1963 under which Federal Funds are made available to the States for construction of academic facilities of both public and private institutions of higher learning. Certain phases of the Federal program are to be administered through a State Commission. In our instance the General Assembly of 1964 designated the State Budget and Control Board to act as the State Commission under the Federal act.

In making further provision for State administration of this program, Governor Russell recommended to the Board at this meeting the appointment of Dr. Marshall W. Brown, President Emeritus of Presbyterian College, as director of an office to be established under the State Budget and Control Board. It was recommended that Dr. Brown receive a salary of \$12,000.00 per year and that he be authorized to employ a secretary and acquire office space and other needs.

The Board approved the above recommendations of Governor Russell and authorized the expenditure of \$7,500.00 for this purpose for the remainder of this fiscal year, it being understood that Federal Funds will ultimately be available to reimburse the State for these funds. The amount approved is to be paid from the 1963-64 appropriation to the Board for "Organizational Unit".

The Board also approved Governor Russell's appointment of an advisory board in connection with the above program consisting of Dr. Charles S. Davis, President of Winthrop College, Dr. R. Wright Spears, President of Columbia College and Dr. J. A. Bacoats, President of Benedict College.

STATE BOARD OF HEALTH - ACQUISITION OF LAND ON SULLIVAN'S ISLAND

The Board approved the acquisition of approximately 1 acre of land on Sullivan's Island by the State Board of Health for use in connection with their shell fish, radiological health and water pollution control programs. This particular tract of land is now owned by the Federal Government and has been declared surplus.

INDUSTRIAL COMMISSION - ALLOCATION FROM CIVIL CONTINGENT FUND

The Board approved an allocation of \$3,907.72 from the Civil Contingent Fund to the Industrial Commission for additional office supplies.

TAX COMMISSION - PURCHASE OF AUTOMOBILES

The Tax Commission requested the Board's approval of their trading five presently owned passenger automobiles for five new ones. This request was based on a provision of the 1964-65 appropriation act requiring the approval of such purchases by the Board.

The Board declined to act on the request in view of the fact that the legislative requirement does not become effective until July 1, 1964.

TELEPHONE SERVICE - PROPOSAL APPROVED

Mr. Walter Brown submitted a report prepared by Southern Bell Telephone and Telegraph Company for the installation of their new "Centrax" type of telephone service. It was understood that this particular plan of service will make communication among State Government departments within the Columbia area more efficient and at some reduction in overall cost.

The Board approved the proposal and appointed Mr. Brown to so advise the telephone company.

JOHN DE LA HOWE SCHOOL - TRANSFER APPROVED

The Board approved a transfer of \$10,000.00 from the appropriation to John de la Howe School for water system improvements to swimming pool repairs.

No further business was transacted and the meeting adjourned at 12:30

A RESOLUTION

MAKING PROVISION FOR THE ISSUANCE OF \$1,345,000 OF NOTES OF THE STATE OF SOUTH CAROLINA FOR THE PURPOSE OF RAISING MONEYS FOR THE STATE BOARD OF CORRECTIONS TO PROVIDE FURTHER PENAL FACILITIES FOR SUCH AGENCY.

BE IT RESOLVED BY THE STATE BUDGET AND CONTROL BOARD OF THE STATE OF SOUTH CAROLINA:

ARTICLE I

FINDINGS OF FACT

As an incident to the adoption of this Resolution the State Budget and Control Board of the State of South Carolina finds that the facts set forth in this Article are in all respects true and correct:

1. By the provisions of Section 9 of Part II of an Act of the General Assembly of the State of South Carolina, entitled "AN ACT TO MAKE APPROPRIATIONS TO MEET THE ORDINARY EXPENSES OF THE STATE GOVERNMENT FOR THE FISCAL YEAR BEGINNING JULY 1, 1963, TO PROVIDE FOR THE ISSUANCE OF STATE NOTES IN THE AMOUNT OF \$5,040,000ETC." (the Enabling Act), it is provided that if the State Budget and Control Board (the State Board) shall express its approval by proper resolution, the Governor and the State Treasurer shall be empowered to issue Notes of the State of South Carolina to the extent of not exceeding \$5,040,000 and to apply the proceeds thereof to the purposes enumerated in Paragraphs numbered 1, 2, 3, 4 and 5 of said Section 9.

2. By Paragraph numbered 2 of said Section 9 of the Enabling Act it is provided among other things that the sum of \$1,500,000 may be raised through the issuance of Notes for the purpose of paying the cost of acquiring a site and constructing and equipping thereon additional penal facilities for the State Board of Corrections (the Board of Corrections).

3. Heretofore pursuant to said Section of the Enabling Act, the State Board did issue \$1,405,000 of Notes:

(a) As of July 1, 1963 \$1,305,000 of Notes, First Series of 1963; and

(b) As of July 1, 1963 \$100,000 of Notes, Second Series of 1963.

Of the moneys so raised \$155,000 was borrowed to make the same available to the Board of Corrections to enable it to acquire a tract of land in Berkeley County.

In issuing the Notes above recited, the State Board reserved the right to exercise the authorizations granted to it by the Enabling Act to issue the remaining Notes at a later date. The State Board now finds that it is necessary to raise the sum of \$1,345,000 to pay the costs of constructing on the site previously acquired suitable penal facilities for the Board of Corrections.

4. Notes issued pursuant to said Section 9 of the Enabling Act are to be payable from, and secured by a pledge of, the revenues derived from the tax imposed pursuant to Article 1, Chapter 12, Title 65, Code of Laws of South Carolina, 1962.

5. Such revenues are, as of this occasion pledged to secure the following outstanding obligations of the State of South Carolina, all of which are held by the State Board in its capacity as Trustee of the funds of the South Carolina Retirement System, viz.:

(a) The now outstanding \$850,000 of an original issue of \$2,125,000 State Notes, dated 2-1-58, issued for various State Institutions.

(b) The now outstanding \$180,000 of an original issue of \$300,000 State Notes, dated 10-1-57, issued for Clemson College.

(c) The now outstanding \$120,000 of an original issue of \$150,000 State Notes, dated 8-1-60, issued for Clemson College.

(d) The now outstanding \$120,000 of an original issue of \$150,000 State Notes, dated 8-1-60, issued for the University of South Carolina.

(e) The now outstanding \$180,000 of an original issue of \$300,000 State Notes, dated 10-1-57, issued for the University of South Carolina.

(f) The now outstanding \$120,000 of an original issue of \$200,000 State Notes, dated 7-1-59, issued for the Archives Department.

(g) The now outstanding \$1,500,000 State Penitentiary Notes, dated 11-1-62.

(h) The now outstanding \$1,305,000 South Carolina State Notes, First Series of 1963, dated 7-1-63, issued pursuant to Section 9 of Part II of the Enabling Act.

(1) The now outstanding \$100,000 South Carolina State Notes, Second Series of 1963, dated 7-1-63, issued pursuant to Section 9 of Part II of the Enabling Act.

6. Heretofore on the occasions of the issuance of the \$1,405,000 of Notes pursuant to Section 9 of Part II of the Enabling Act, the State Board in its capacity as Trustee of the funds of the South Carolina Retirement System agreed that all notes issued pursuant to said Section 9 of Part II of the Enabling Act should be on a parity with those enumerated above as sub-paragraphs (a) through (g) of paragraph 5, supra.

On the basis of the foregoing findings, the State Board by this resolution undertakes to:

(1) Raise \$1,345,000 for the purpose of providing funds for constructing and equipping, on the site previously acquired, additional penal facilities for the Board of Corrections;

(2) Authorize the Governor and the State Treasurer to issue Notes of the State of South Carolina to the extent of \$1,345,000; and

A RESOLUTION

MAKING PROVISION FOR THE ISSUANCE OF \$265,000 OF NOTES OF THE STATE OF SOUTH CAROLINA FOR THE PURPOSE OF RAISING MONEYS FOR THE CONSTRUCTION OF ARMORIES IN SEVEN LOCALITIES IN THE STATE OF SOUTH CAROLINA.

BE IT RESOLVED BY THE STATE BUDGET AND CONTROL BOARD OF THE STATE OF SOUTH CAROLINA:

ARTICLE I

FINDINGS OF FACT

As an incident to the adoption of this Resolution the State Budget and Control Board of the State of South Carolina finds that the facts set forth in this Article are in all respects true and correct:

1. By the provisions of Section 3 of Part II of an Act of the General Assembly of the State of South Carolina, entitled "AN ACT TO PROVIDE SUPPLEMENTAL APPROPRIATIONS FOR CERTAIN STATE DEPARTMENTS AND INSTITUTIONS FOR THE FISCAL YEAR 1963-64; AND TO AUTHORIZE THE STATE TO ISSUE NOTES NOT TO EXCEED THE SUM OF ONE MILLION FOUR HUNDRED EIGHTY-FOUR THOUSAND DOLLARS FOR ADDITIONAL ARMORIES, ADDITIONAL FACILITIES FOR CERTAIN STATE SCHOOLS AND FOR THE PURCHASE OF ADJOINING PROPERTY AT THE SOUTH CAROLINA STATE COLLEGE, AND TO PROVIDE FOR THE PAYMENT OF THE NOTES; TO AUTHORIZE THE REFINANCING OF CERTAIN BONDS HELD BY THE SOUTH CAROLINA RETIREMENT SYSTEM; TO REPEAL ACT NO. 848 OF THE ACTS OF 1962; TO AMEND SECTION 2 OF ACT NO. 833 OF THE ACTS OF 1962, SO AS TO EXTEND THE USE OF APPROPRIATIONS TO THE DEFENSE SCHOLARSHIP FUND; AND TO AUTHORIZE ADDITIONAL EMPLOYEES FOR THE OFFICE OF THE SPEAKER OF THE HOUSE OF REPRESENTATIVES," Approved the 20th day of April, 1964 (the Enabling Act), it is provided that if the State Budget and Control Board (the State Board) shall express its approval by proper resolution, the Governor and the State Treasurer shall be empowered to issue Notes of the State of South Carolina to the extent of not exceeding \$1,484,000 and to apply the proceeds thereof to the purpose enumerated in Paragraphs letter A, B and C of said Section 3.

2. By Paragraph lettered A of said Section 3 it is provided, among other things, that the sum of \$265,000 may be raised through the issuance of Notes for the purpose of paying the cost of constructing armories in the seven localities set forth in said paragraph.

Paragraph D of said Section 3 requires, as a condition precedent to any action pursuant to the Enabling Act, that the State Board adopt a resolution authorizing the Governor and the State Treasurer to issue notes pursuant to the Enabling Act.

3. The State Board finds that the moneys required for the armories are needed immediately and that notes to the extent of \$265,000 should be issued forthwith.

4. The State Board has given due consideration to the other matters for which State Notes may be issued pursuant to said Section 3 of the Enabling Act, but has decided to defer action thereon until a later date. In so determining, the State Board does not waive, but on the contrary, expressly reserves its right to issue the remaining notes authorized pursuant to said Section 3 of the Enabling Act under the conditions hereafter stated.

5. Notes issued pursuant to said Section 3 are to be payable from, and secured by a pledge of, the revenues derived from the tax imposed pursuant to Article 1, Chapter 12, Title 65, Code of Laws of South Carolina, 1962.

6. Such revenues are, as of this occasion pledged to secure the following outstanding obligations of the State of South Carolina, all of which are held by the State Board in its capacity as Trustee of the funds of the South Carolina Retirement System, viz.:

(a) The now outstanding \$850,000 of an original issue of \$2,125,000 State Notes, dated 2-1-58, issued for various State Institutions.

(b) The now outstanding \$180,000 of an original issue of \$300,000 State Notes, dated 10-1-57, issued for Clemson College.

(c) The now outstanding \$120,000 of an original issue of \$150,000 State Notes, dated 8-1-60, issued for Clemson College.

(d) The now outstanding \$120,000 of an original issue of \$150,000 State Notes, dated 8-1-60, issued for the University of South Carolina.

(e) The now outstanding \$180,000 of an original issue of \$300,000 State Notes, dated 10-1-57, issued for the University of South Carolina.

(f) The now outstanding \$120,000 of an original issue of \$200,000 State Notes, dated 7-1-59, issued for the Archives Department.

(g) The now outstanding \$1,500,000 State Penitentiary Notes, dated 11-1-62.

(h) The now outstanding \$2,750,000 State Notes issued pursuant to Act No. 284 of 1963.

7. In order that no question may arise as to whether the pledge made to secure the NOTES to be issued pursuant to said Section 3 of the Enabling Act shall be on a parity with the pledges securing the aforesaid obligations, it has been determined that the State Board, in its capacity as aforesaid, should agree thereto and shall cause evidence of such agreement to be made known as hereinafter provided.

8. On the basis of the foregoing findings and for the purpose of raising the sum of \$265,000, the State Board by this Resolution undertakes to:

(1) Approve the immediate construction of the armories described in Paragraph B of Section 3 of Part II of the Enabling Act.

(2) Authorize the Governor and the State Treasurer to issue Notes of the State of South Carolina to the extent of \$265,000.

(3) Fully reserve to itself the right to issue additional notes pursuant to Section 3 of the Enabling Act under the terms and conditions hereinafter set forth; and

(4) Consent that the pledge securing the Notes authorized hereby and other Notes issued pursuant to Section 3 of the Enabling Act shall be on a parity with the pledges made to secure the present outstanding obligations of the State of South Carolina enumerated in Paragraph 6, supra, and others hereafter issued pursuant to Act No. 284 of 1963.

If the option to redeem shall be exercised, notice of redemption shall be given to the holder of said notes, at least thirty (30) days prior to the prepayment date, by mailing to such holder a notice prescribing such prepayment date and specifying the amount of principal (and premium) to be prepaid.

Section 5.

Payment of interest and instalments of principal of said Notes and portions thereof (if the privilege of prepayment be exercised) shall be effected by check or draft drawn by the State Treasurer. Such payments shall be effected by the use of funds pledged for the payment of the principal and interest of the Notes. All moneys received by the State Treasurer from the tax above referred to shall be duly impounded by him to the extent required to provide for the payment of the principal of and interest on the Notes herein authorized, other notes hereafter issued on a parity therewith, and all existing obligations heretofore issued, secured in whole or in part by a pledge of the aforesaid revenues.

Section 8.

The report of the Admissions and Transfers Committee of the Council of Presidents, dated April 8, 1963, and setting forth a policy for determination of residency with respect to students at state-supported institutions, has been surveyed by me. Dear General McLeod:

At the meeting of the Budget and Control Board April 30, 1964, the Board had before it a proposal from the Council of College Presidents of the State Institutions of Higher Learning for a definition of State Residency in connection with in-state and out-of-state student fees.

The Board approved the proposed definition with the understanding that it be presented to you for your opinion as to whether or not there are any legal complications that should be taken into account.

We are enclosing a copy of the proposed definition and shall appreciate an opinion from you as requested by the Board.

Enclosure

Copy to:

Report of the Admissions and Transfers Committee
of the Council of Presidents
April 8, 1963

- I. The Committee recommends that the following definition of state residency be adopted as a basis of standard policy among the state-supported colleges.

Definition of State Residency for Determination of Tuition and Fee Purposes

All students under 21 years of age whose parents are not domiciled in South Carolina at the time of first enrollment in the institution shall be termed, for this purpose, to be out-of-state students, with the following exceptions:

- (a) Students whose parents are maintaining a legal voting residence in South Carolina.
- (b) Students under 21 years of age who have been domiciled in South Carolina for at least 24 months immediately preceding the day of their first enrollment.
- (c) Students 21 years of age or over at the time of their first matriculation who have been domiciled in South Carolina for at least 12 months preceding the day of their first enrollment.
- (d) Children of military personnel permanently stationed and/or domiciled within the State of South Carolina at the time of enrollment. Such children will continue to be considered as in-state residents even though the parents are transferred outside of the state.

The term "domiciled in South Carolina" is interpreted to mean that the student is not in the state primarily to attend the institution and that his abode in South Carolina has not been set up merely as a technical bar to the higher tuition charge.

Mere property ownership in South Carolina does not in itself constitute a legitimate basis for residency status. However, once residency status is accorded a student, it remains available to him throughout his continuous enrollment in the institution.

Discretion to adjust individual cases within the spirit of this definition is lodged with the designated school official.

Note: Section (a) is included in the suggested definition since this item is part of the South Carolina appropriation act. However, the Committee suggests that the legislature might consider the unfairness of this section with regard to parents in private industry who are transferred from place to place. (Actually in the context of the definition as presented here, section (d) is redundant.)

Dear Jim:

At the January 30 meeting of the Council of Presidents, Bob Edwards and others urged me to contact you regarding a definition of state residency for determination of tuition and fee purposes.

Such a definition has been drawn up and passed by the Council of Presidents. In the Minutes of July 31, 1963, General Clark made a motion that the definition be submitted to the Budget and Control Board for adoption.

Since your office received a copy of all minutes, reports and other information of the Council, I assumed that it probably had been brought to your attention. For your information, I am enclosing a copy of the report which we hope the Budget and Control Board will approve and adopt as state policy. As soon as you give me the word, I shall then inform the Presidents of all the State colleges. It is my fault for not following through on this proposal, I apologize.

With best personal regards,

Sincerely yours,

Charlie

Dear Mr. Brunton:

DEAN OF ADMINISTRATION

Post Office Box 333

Attention Mr. P. C. Smith

Dear Sirs:

Radio station WUSC-FM is currently housed in a small building at the Pendleton Street entrance to the parking lot extending from Flinn Hall to the rear of the Administration Building. As envisioned when Permanent Improvement Project No. 27-33, "Land Acquisition - East of Pickens Street" was approved, we plan to move WUSC-FM and other elements of the Extension Division to the Spigner property, 915 Gregg Street. After this move, we contemplate no further need for the small building now occupied by WUSC-FM.

This 25' x 17' structure is believed to have been built in the late 1850's as a servant house. In recent years, it has served as a small music studio, a storage area for the Campus Shop and as a radio station. The building has 12" masonry walls, stucco exterior, concrete floors and metal roof and is in fair condition.

The servant house is relatively isolated from academic and support activities, is difficult to effectively utilize and, as a separate structure, is relatively expensive to maintain. Vehicles in-bound from Pendleton Street to the parking lot must make a blind, sharp turn around the building, thus creating a safety hazard to pedestrians and other vehicles.

Considering these factors, we have obtained approval from our Board of Trustees and request State Budget and Control Board authority for demolition. This will be a relatively simple job, costing no more than \$500.00, to be funded from the normal buildings and grounds maintenance account.

Sincerely yours,

H. Brunton

Dear Mr. Smith:

At the April 7, 1964, meeting of the Board of Trustees, the following resolution was passed:

"That Graduate Assistants who are employees of the University and perform certain specific duties for a stipend and are regularly enrolled in the Graduate School may enroll for as many as three courses for a fee of \$10.00 per course. There will be no other remission or reduction of fees except as provided by law."

In reviewing University fees which have been reduced for members of the University staff since 1938 and graduate students during the fiscal year 1962-63, it was noted that Section 22-22 of the State Institutions Bond Act states:

"Tuition fees shall be required to be paid by each individual student attending any of such institutions, in such amount or amounts and under such conditions as the respective boards of trustees of such state institutions shall prescribe, with the approval of the State Budget and Control Board"

We ask the approval of this action by the Budget and Control Board. Note that the resolution, which specifies Graduate Assistants does not apply to University staff who will henceforth pay full fees.

We cannot overemphasize the importance of the reduced fee policy to the development of a strong graduate school. The understanding and cooperation of the Budget and Control Board will be much appreciated. Please feel free to call if questions arise.

Dear Doctor Smith:

We are respectfully requesting that the Budget and Control Board approve an allotment from the Civil Contingent Fund in the amount of \$1,600.00 to be credited to our Special Payments account. This amount is needed due to the fact that a new Commissioner, Mr. J. Dawson Addis, was appointed April 3, 1964, to replace Mr. Walter T. Lake. Mr. Lake was due twenty-four days terminal leave; and, therefore, this terminal leave pay had to be paid from our Special Payments account. It will be necessary beginning on May 12th and continuing until July 1st that we pay one of our court reporters from this account also as it will take this long for him to transcribe all the hearings he took for Commissioner Lake.

As you will recall, the Budget and Control Board approved a transfer on September 23, 1963, allowing us to transfer \$2,307.72 from our Travel account in order that we might create a much needed salary position. It is now necessary that we request that this amount be credited back to our current appropriation, and we would like to request that, if possible, this amount be credited to our Office Supplies account. Due to an ever-increasing number of claims being reported and processed each month, it has been necessary to purchase additional supplies (file folders, forms, etc.) to take care of the required paper work involved in processing these claims. This increase in claims also increases our use of postage for which we spend approximately \$800.00 per month.

We would greatly appreciate your favorable consideration of these requests in the amount of \$3,907.72.

Dear General Pinckney:

At the meeting of the Budget and Control Board April 30, 1964, the Board declined to approve your request for an increase in the salary of Colonel Withers.

The request was rejected on the basis of the proposed use of Armory Construction funds. The Board was of the opinion that appropriations for construction could not reasonably be made available for salary purposes.

Dear Mr. Smith:

Since Colonel Withers' employment as Maintenance Engineer on 7 October 1960 he has performed his assignments in an outstanding manner and has saved the State many thousands of dollars in the construction of new armories. He has also relieved the Engineering Department of the Budget and Control Board much overtime work in travel and inspection of new construction.

He not only is responsible for the maintenance of 126 buildings throughout the State occupied by the National Guard and owned by the State, but in addition devotes considerable time to the planning, design and inspection of construction of all the new facilities under the armory construction program.

The major portion of Colonel Withers' salary is paid by the Federal Government under our Service Contract and costs the State only \$1,575.00. This pertains to his work in the maintenance field. This salary is supplemented by \$600.00 annually from the Armory Construction account, which is not representative of the responsibilities he shoulders in this field. To secure an individual with the knowledge and experience he has gained and is displaying, and the extremely conscientious manner in which he pursues each construction project with its resulting saving to the State would be most difficult and cost in the neighborhood of \$10,000.00 per year.

Mr. J. M. Smith

It is therefore requested that authority be granted to increase his salary by an additional \$1,200.00 per year from the Armory Construction appropriation.

JUSTIFICATION FOR ADJUSTMENT OF DIRECTOR'S SALARY

TO: The State Budget & Control Board

It is requested that effective today and for the remaining months of Fiscal Year 1964, the salary of the Director, South Carolina Civil Defense Agency, be increased to align salary with added duties and responsibilities. This increase would require no additional request for funds as sufficient funds are presently allocated in the current budget under the Classification of "Personal Service".

In justification of the requested change, the following information is offered for consideration:

1. Since December 1963, in addition to performing all inherent duties and responsibilities encumbered upon the Office of Director, South Carolina Civil Defense Agency, the Director has performed the additional duties and assumed additional responsibilities associated with the Office of Emergency Planning, more specifically, the Emergency Management of Resources. These added duties and responsibilities have expanded the work load at least 25 per cent.
2. At the present time there are no paid personnel available to administer the Emergency Management of Resources Program. Lt. Governor Robert E. McNair is serving as Emergency Planning Director and Chairman of the Emergency Resources Planning Committee, and since December 1963, the State Civil Defense Director has been serving as Vice-Chairman of this Committee.
3. In addition to the responsibilities associated with this assignment, for the past several months he has been preparing the State for participation in the Comprehensive Program for Survival of Government and Management of Resources.
4. The State Civil Defense Director will continue to serve as Vice-Chairman of the Emergency Resources Planning Committee and the South Carolina Civil Defense Agency will continue to provide administrative support for this program.

2225

April 6, 1964
Page #2

5. In the near future, the Federal Government will grant funds directly to the State to provide a paid staff of two individuals. The Director plans to have these individuals located in this Agency. In his capacity as Vice-Chairman of the Emergency Resources Planning Committee, having the small staff located in this Agency, he can relieve Lt. Governor McNair of many administrative tasks associated with preparing a State Emergency Resources Plan.

6. It is also pointed out that 50 per cent of the Director's salary increase is matched with Federal funds, therefore, utilizing State funds for only half of the total increase.

Dear Mr. Smith:

In reply to your letter of April 18, I offer the following additional information on our request for approval of the Board Resolution of April 7:

The Resolution did not change the nature of income next year as compared to this year because the Board Resolution is a reaffirmation of the presently existing policy. However, in studying the statutes, we find that such action should have approval of the Budget and Control Board. We hope this action will be forthcoming. If it is not, we will of course change the policy to one in accord with the views of the Budget and Control Board. The difference between the full tuition and the tuition which graduate students pay under the plan set forth in the Resolution is approximately \$20,000 per academic year.

I should add that the practice of reduced fees for graduate assistants is the common practice in this state and others.

JUSTIFICATION OF FEASIBILITY STUDY

It is increasingly evident that the State Library Board will require adequate housing for staff, services, and books if it continues to develop its extensive program of state-wide services and increases these services to include reference and research service to the executive and legislative branches of state government and to state agencies. The services of the State Board and its book collections have already expanded to a point that they can no longer be accommodated in the three makeshift locations which they now occupy. In view of the fact that the State Library Board will be receiving a greatly increased allotment of federal funds for the development of staff, services, and book stock, and in view of the fact that the State Library Board will also be receiving some \$400,000 a year for construction projects in the state, it is proposed at this time to undertake a study of the feasibility of constructing an adequate library building to house the State Library Board.

The Library Services and Construction Act which was recently passed by Congress will become operative in Fiscal 1965. Under the terms of this Act, in addition to funds to provide additional services, the State Library Board will also be administering a sizable allotment for library building construction. These funds for building construction are estimated in the neighborhood of \$450,000 per annum with a matching requirement from state and local funds of some \$240,000. In this program the federal percentage will be 66% and the state percentage 34%. The regulations require that the construction funds be spent only for buildings which are considered at present inadequate or for construction of new buildings where no buildings exist.

The definition of construction given in the memorandum from the Library Branch of the Office of Education January 21, 1964 is as follows: " 'Public library construction' will be interpreted to mean the construction of new public library buildings . . . Assuming that the appropriate requirements of the law and the regulations have been met, such public library construction projects may include buildings for local municipal libraries and branches, county or multi-county libraries, and regional or State libraries."

The feasibility study would be developed by a registered South Carolina architect who in turn would confer with a library building consultant of recognized status in the field in developing a building program. Functional needs would be considered first, but an open, inviting design would be an objective.

The State Library Board is the agency in South Carolina charged with the extension and improvement of public library service in the state. In effect, the State Library Board serves as a "state library" since the State Library here is actually a legislative reference library.

The State Library Board is housed in the following three locations: Technical Services and Reference at 1001 Main Street (2,740 square feet including stack space for 40,000 volumes); Administrative office in Cornell Arms (839 square feet); additional book storage in Richland County Library—4th stack level (1,200 square feet).

Lack of sufficient space to consolidate all logical administrative operations and to house the total book collection in one location hampers the efficient operation of the present program. Over-all supervision is next to impossible, and the loss in staff time spent in going among the three locations is expensive. The division of the program between two offices is inconvenient to the public which must frequently visit both offices to secure the information or advice sought. Having the book collection

housed in two locations five city blocks apart is time consuming for the reference and cataloging staff which must work with the total collection. With no reading room facilities, the use of the valuable reference collection is denied departments of state government.

Housing for the book collection which now totals approximately 70,000 volumes and will exceed 110,000 volumes in five years is a major need. This book collection is the most comprehensive one in the state devoted to currently useful materials. A minimum estimate of its value set at \$8 per volume is in the neighborhood of \$600,000. It is presently housed in the old Caughman building which is far from fireproof.

**A NEW NAME FOR A NEW CONCEPT IN EFFICIENT HANDLING
OF HIGH VOLUME, HIGH PRIORITY COMMUNICATIONS.**

DESIGNED AND DEVELOPED BY THE BELL SYSTEM AND ENGINEERED SPECIFICALLY FOR THE STATE OF SOUTH CAROLINA.

The Honorable Donald S. Russell

Governor of South Carolina

and

Members of the State Budget and Control Board

Columbia, South Carolina

Gentlemen:

We can save the state of South Carolina \$23,604.00 the first year!

The recent survey we made of communications services in the greater Columbia area shows this amount to be a fair estimate of the dollars and cents advantage of Centrex to the state of South Carolina.

With Centrex South Carolina will have the most modern, most effective telephone communications service offered. It will completely meet communication needs today; it's flexible enough to grow right along with needs of tomorrow.

The direct in-dialing feature of Centrex will save up to a half minute on every one of the more than 10,000 calls that are received on an average business day. And 8 out of 10 will no longer require operator handling. Those who call state government agencies will be amazed at the speed and efficiency they encounter.

Direct out-dialing will save untold hours of state official's and employee's time in using the telephone. Telephone "bookkeeping" by operators will be a thing of the past.

The departments within state government agencies in the greater Columbia area are presently served by 17 separate switchboard systems, and 280 business lines.

2241

State agencies will outgrow these systems to the point where they can no longer be expanded economically to handle the demands placed on them. In addition, operator salaries continue to climb, making telephone service costs far higher than they need be.

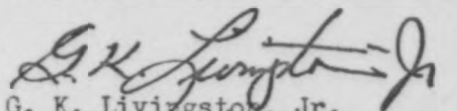

Centrex will combine all existing telephone communications services of state government agencies in the greater Columbia area into one efficient and economical system, reduce the number of telephone operators from 13 full time and 14 part time to 6 full time, free valuable floor space now occupied by switchboards, and vastly improve communication services throughout state government.

With the estimated completion of the new state office building and Board of Health building being July 1, 1965, plus the movements of many state departments from present office space to other locations and the re-arrangement of office space in existing locations of other agencies, a tremendous re-alignment of telephone communications services is imminent. Now, therefore, we believe this is the opportune time to centralize and greatly improve the state's communication services. Centrex is the most modern means available to accomplish this achievement.

The impact of Centrex service improvements with WATS and the annual savings are described in detail in this brochure.

With your early approval, we can have your Centrex service in operation by July, 1965.

Very truly yours,

G. K. Livingston, Jr.
District Sales Manager

As we look at this new service called Centrex I think it might be well for us to discuss the existing problems you are now encountering with your communications and then offer the solution to them.

Here is how your present system looks to a caller. He knows you are there but he has to go through one or more switchboards to reach you. Both parties are ready to transact business and they have to wait for a third party, the operator, to get you. At present all incoming calls funnel through a switchboard bottleneck. A few examples of these calls are:

- 1- Intra-departmental calls
- 2- Public Calls
- 3- Long Distance Calls
- 4- Field Employee Calls
- 5- Emergency Calls

Solution -

Centrex offers direct calling to the called person by passing the operator and saving approximately 28 seconds per call (national average).

Centrex breaks the bottleneck.

Let's see how this is done.

Each of your telephones can be dialed direct from any place in the country and they in turn can dial any telephone. Each telephone user can call any other state office in Columbia by dialing a minimum of 4 and a maximum of 5 digits. In other words, discounting the convenience Centrex offers, it also saves time and time is money in the bank.

More Problems -

In Columbia you now have 13 full time and 14 part time operators. Their combined annual salaries total \$66,276.00 plus fringe benefits. With Centrex, routine calls by-pass the operator entirely. Our preliminary studies indicate 6 full time operators will handle your communication traffic efficiently. (Day - Night & relief) More savings to you in operators salaries - 6 operators @ \$20,880 (average \$3,480 each) as compared to \$66,276 under present conditions will save you \$45,396 per year.

When an employee calls in you get double savings, the operators time plus the employees time.

Problem -

Each month the various departments of the state spend considerable time analyzing long distance and local telephone bills.

Solution -

On all long distance calls made over the regular long distance facilities a statement will be rendered for the individual telephone number originating the call, thus eliminating costly accounting procedures.

Problem -

Current directory listings are inadequate.

Case - A citizen desires information from a particular person in the Department of Education. Referring to the telephone directory he finds this person is not listed. His normal behaviour is to then dial the first number listed for this agency. In this particular case the call goes to the Superintendent of Education and then the receptionist has to get the information and then refer him to the correct telephone number -

Results- lost time, lines tied up, irritation of the citizen and the employee.

Solution -

* A listing can be furnished with each main Centrex station, cross references are available also.

Problem -

Long distance calls fluctuate according to need, and most important, according to budgets. Memos and letters are being written to hold this cost down and the so-called hidden cost of writing these letters are ignored. Letters that are written usually require an answer or at least acknowledgment. Most are filed for future reference when the need does not exist. Field visits are made when in certain cases a telephone call would suffice.

Solution -

One of the additional services that is available with Centrex is Wide Area Telephone Service, better known to the business world as WATS.

1- WATS gives you access to our direct distance dialing network so you may make unlimited calls to any or all telephones throughout the state.

2- To be used exclusively by you every day, all day.

3- Unlimited outgoing station to station calls at a fixed monthly rate.

4- WATS may be adapted for Data Transmission.

5- Helps to eliminate costly correspondence and memos.

6- Curtail some field visits.

7- Allows stricter adherence to communications budgets.

8- Assists in supervision of out of town personnel.

9- Many more cost saving advantages to you.

WATS can and will save you \$9,756.00 per year and still improve your service many times over.

During the month of January 1964 there were 2,734 intrastate long distance calls made by all agencies. These calls consumed 11,470 minutes at a cost of \$5,813.00. This billing includes long distance calls, 3 Full Time WATS and 1 Measured Time WATS. Engineering studies indicate 10 lines will handle your flow of traffic and we have made allowances for increased usages.

If you were to use these WATS line 8 hours per day, 20 work days per month you could theoretically talk for 96,000 minutes at a cost of only \$5,000.00 per month. To sum up the WATS presentation, you would get all the benefits we mentioned before; talk 84,530 more minutes each month and save \$813.00 every 30 days or \$9,756.00 per year. You remember we stated earlier - for your exclusive use all day every day. The above mentioned 1,509 hours does not include any calls you might make at night or on week-ends. This is bonus time at no additional cost. Many businesses use their WATS lines for transmitting data after normal working hours. This could be arranged for South Carolina as well.

All of the features of Centrex are of direct benefit to this state government, each of them perfectly coordinated with the other to provide balanced, economical communications for the state of South Carolina.

In addition to the many advantages of Centrex we come to the most important one. This service can save you \$23,604.00 the first year. Here is the breakdown:

This savings is derived by a reduction in operators salaries and utilization of WATS service.

<u>Present Annual Telephone Cost</u>		<u>Centrex and WATS Annual Cost</u>
\$ 66,275.00	Operators	\$ 20,880.00
\$ 69,756.00	Long Distance	\$ 60,000.00
<u>\$213,066.00</u>	Local Telephone Service	<u>\$244,614.00</u>
\$349,098.00	Total	\$325,494.00

Studies will be made in the future to determine if direct lines from the larger cities such as Greenville, Charleston, etc., might not offer still more savings and advantages.

A look now to the future: With continued growth and progress you can expect the cost of conventional systems to climb even higher. Naturally the cost of Centrex will increase too, but on a much more gradual basis because of the continued savings in operators salaries and long distance services.

Note: The difference in this present revenue and revenue previously reported in this proposal is that we added approximately 5% increase for the next 15 months so a comparison could be made between conventional systems and Centrex as of 7-1-65. Billing reported here is as of January 1964.

Conclusion -

Gentlemen: We would like to thank you for the fine cooperation we have received from the various departments of this state government and especially to Mr. John Turnbull we extend our sincere appreciation for supplying certain data necessary for this study.

In the interest of South Carolina, from a communication viewpoint and more important from an economical outlook we feel it necessary to advise you of the importance of a very early decision regarding this proposal. With or without Centrex this is most important in order to meet your service date of July 1, 1965.
