Subject: Unified Carrier Registration (UCR)

David,

Now that you and Sharon have explained to me the difference between the single-state registration plan and the UCR Agreement under the new federal law, I find that Code Section 56-3-663 is sufficiently broad to authorize the SCDMV's participation in either program. In other words, the Legislature intended in 56-3-663 that the DMV have the latitude to enter into multi state programs, knowing that those programs would change and evolve over time.

In summary, South Carolina is authorized to participate in UCR.

Val
