---

Governor Nikki Haley

My name is Sierra Gurtler and I am a student journalist with nationally-awarded, Pacemaker-winning student broadcast program, Wave TV at Summerville High School. We are currently working on C-SPAN's Student Cam documentary and would love to speak with you on the topic of South Carolina's legalization of CBD oil. We will be interviewing people who sponsored the bill as well as those who were against it. We would love to speak with you for our documentary to get your perspective. The piece will be unbiased and cover all sides, and it would be stellar if we could hear from you. We could meet you anywhere in South Carolina (preferably in the Charleston Area) this Thursday, this weekend, or into next week if necessary. Let us know if this is something you would be interested in, and if so, we can meet you at the time and place that is most convenient for you. Your insight and expertise would be greatly beneficial to our documentary. Thank you for your time and consideration.

We look forward to hearing your response.

Sierra Gurtler, Wave TV
