First reading of **Ordinance 53-10** to amend the County Code so as to provide for an additional exemption to the general provisions of the county's noise ordinance. Mr. Whitten stated the situation in Horry County was that the current code of ordinances prohibited concrete batch plants from operating from 9:00 p.m. until 7:00 a.m. At the same time, government entities, including Horry County, were sending out request for proposals on construction projects that required nighttime work to be accomplished. This was a difficult situation because they could not meet both requirements. The ordinance provides a mechanism for allowing selective batch plants to be eligible for special event permits. The idea was to establish a list of eligible batch plants. He presented a document that outlined the guidelines that would be used in determining eligibility. Factors such as the location of the batch plants, development timeline of the area surrounding the plant, sound mitigation activities, and historical compliance to the noise ordinance, would be evaluated for either granting or denying a special event permit. **Mr. Foxworth moved to amend to include the document (guidelines for eligibility) into the ordinance, seconded by Mr. Schwartzkopf. The motion passed unanimously. Mr. Foxworth moved to approve the amended ordinance, seconded by Mr. P. Prince. The motion passed unanimously.**

The motion passed unanimously.**
