Georgetown County Delegation,

The Governor wanted you to know of the following things she has done and is committing to doing regarding the Georgetown City fire.

- Helped local officials establish a central relief fund for private donations, called the "Front Street Relief Fund", donations for which can be made at any First Citizens branch, with the understanding that the locals would organize a governing committee of local officials (city, county, chamber, and the legislative delegation).
- Asked Director Cheryl Stanton at DEW to send a mobile SC Works group to meet one-on-one with affected citizens tomorrow.
- Asked Director Duane Parrish at PRT to send officials to meet with local leadership on revitalizing the 700 Block for tourism next Tuesday.
- Requested U.S. Senators Graham and Scott's offices and the Department of Commerce to research any federal or state funding that might be available – as we continue to research this issue, we will keep you posted on any findings.
- Will be signing letters of thanks on behalf of a grateful state to the injured personnel, three firefighters and one police officer.

To donate to the Front Street Relief Fund, citizens can call any First Citizens branch or directly call the First Citizens of Georgetown branch at 843.546.8591.

If you have any questions or concerns, please let us know.

Thank you,  
Katherine
